Boca Raton Firefighters Visit B’Nai Israel School

Boca Raton- Boca Raton Firefighters made a special trip to visit the students at B’Nai Israel School at 2200 West Yamato Road. Firefighters met with students to speak about fire safety, Stop Drop and Roll, Know Two Ways Out and Stay Low Under Smoke and Go! They also watched as a Firefighter dressed up in his fire gear and mask. Talks such as these are used to teach young students not to be afraid of firefighters when they are dressed and ready to fight a fire. They are taught that even though they look different in their gear, Firefighters Are Our Friends. After the talk students were then given a tour and walk through of a fire truck. Boca Raton Fire Rescue Services visits schools and organizations throughout the year as part of their commitment to provide Public Education to the community.
