Subject Property Address (if different from applicant address): _____

Property Owner Name: _____

Property Owner Signature: _____

For Office Use Only

Development Name: _____

Development Address(es): _____

Date Approved: _____

CAB Stamp:

Conditions of Approval: _____

Section Two: Alternative Identity Sign Requirements

Submittal. Sec. 24-49 of the City Sign Code states that alternative identity signs are “permanent identity signs that have design or placement aspects that differ from those otherwise specified by this chapter, based upon the merits of the sign design and architectural or site conditions. Alternative sign designs pursuant to this section shall not be authorized for a single occupancy within a multiple-occupancy development unless there are architectural or locational circumstances that are unique to the occupancy in the context of the development that do not apply anywhere else within the development”. Alternative identity sign plans shall contain the following information:

1. Drawings. The drawings shall include the following:
 - a. Dimensions, lettering style, material, mounting details, and illumination details.
 - b. Color rendering and color samples.
 - c. Photos of signs on abutting and subject properties.
2. For a free-standing ground identity sign, submit a copy of a survey/plot plan that shows all existing buildings and all existing free-standing ground identity signs on the property. Show the setbacks from the property line abutting the public right-of-way to the proposed sign and show the dimensions between any existing ground identity signs.
3. Landscape plan for a freestanding sign. In all instances, the sign location shall be coordinated with the landscape design to avoid present and future tree/sign conflicts.
4. For a wall sign, submit an elevation for the wall sign, which clearly illustrates the dimensioned location. Show height, length and width of the sign structure, sign background and sign canopy. Graphics should be clear and easy to read.

Section Three: Alternative Identity Sign Design Criteria

Alternative Identity Sign design criteria should use the framework below to provide the criteria, which will regulate the proposed sign on the property. The applicant may attach sign plans and detail sheets to the application, in lieu of using the space provided under “Details”.

Wall Sign
